SPRINT #3 REVIEW

---

TEAM P03

# Feedback received from Sprint #2

---

## Issue #1:

«As a client I would like a smaller Navbar that fits in one row»

## Issue #2:

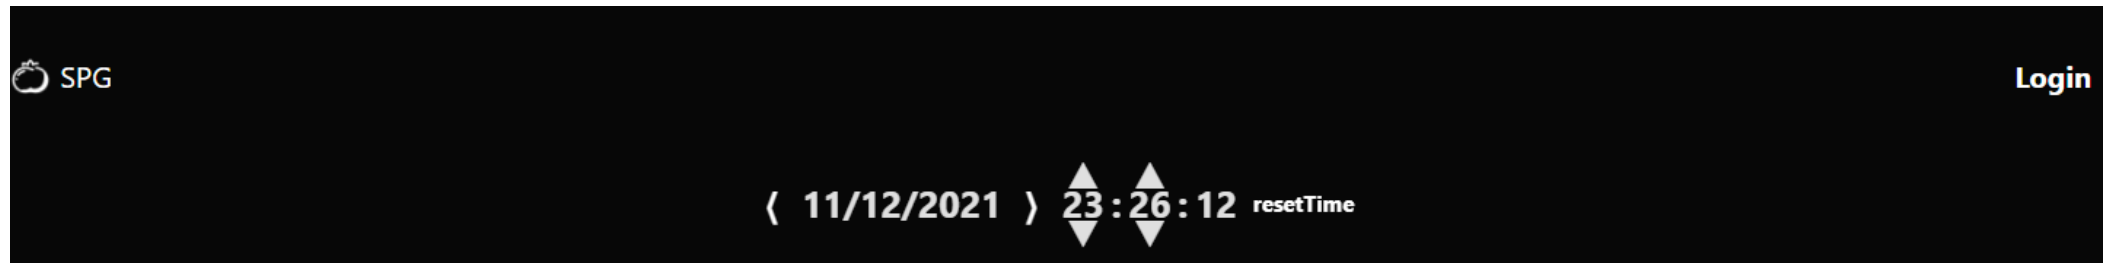

«As a client I would like to be automatically logged in after I register to SPG»

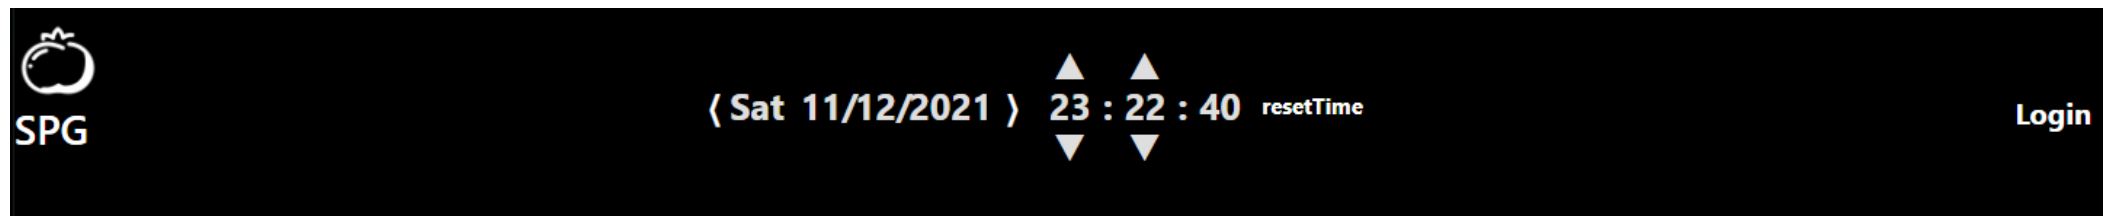

# Issue #1

---

Before

After

# Issue #2

---

Automatic Login After  
Registration

Still not implemented  
Why?

Welcome to SPG

## Stories in Done

Story #5: **Wallet top-up**

Story #16: **Booking change**

Story #9: **Report availability**

Story #10: **Check orders pending cancelation**

Story #12: **Schedule bag delivery**

Story #13: **Schedule pick-up**

Story #17: **Confirm booking**

Story #15: **Acknowledge delivery**

# Story #5: Wallet top-up

---

"As a shop employee  
I want to top-up a client's wallet"

Every employee has a page where they can see the list of clients.  
From there they can top-up their wallets.

# Story #9: Report availability

---

Every farmer has their personal page where they can report expected available amounts for their products.

# Story #10: Orders pending cancelation

---

Every employee can see the list of the orders.  
For each order in state «Pending Cancelation» a button appears that, when clicked, shows the user info.

# Story #12: Schedule bag delivery

---

"As a registered user  
I want to opt for delivery of food at a  
specified address, date and time  
for my purchase"

When an user is making an order, they have the possibility to choose between two options:

- Bag delivery
- Pick-up

For both the user can select a specific date and time between Wednesday and Friday.

# Story #13: Schedule pick-up

---

“As a registered user  
I want to select a pick-up date  
and date for my purchase”

When an user is making an order, they have the possibility to choose between two options:

- Bag delivery
- Pick-up

For both the user can select a specific date and time between Wednesday and Friday.

# Story #17: Confirm booking

---

"As a farmer  
I want to confirm bookings  
for the upcoming week"

Every farmer has their personal page where they can confirm the amounts for their products.

Clients will be contacted if they don't have enough credits or their orders have been changed at 9:00 of Monday.

# Story #15: Acknowledge delivery

---

“As a warehouse manager  
I want to acknowledge  
the delivery from a farmer”

The warehouse manager has a page where they can see the inbound deliveries to the warehouse. In this page they can acknowledge the delivery through a toggle switch button.

# Story #16: Booking change

---

“As a client  
I want to change or  
modify a booked order”

Clients have a page where they can see the orders they have made.  
It will be possible to modify booked orders that are still in the «Issued» state.

# What's next?

---

## Improve the usability

Some pages could be improved by putting more emphasis on certain things through labels, colors or more clear wording.

## Responsiveness

The site can be used on tablets and smartphones, but there are still things that needs to be done to improve the user experience on these devices.

# Thank you for your attention

---
